

Grouse Creek, Utah
July 1, 1935

T.H. Humphreys,
State Engineer
Salt Lake City,
Utah.

Dear Sir:

In as much as the dry seasons of the past few years has made necessary the conservative use of water in the Security Pipeline At Grouse Creek, the stockholders are unable to get water for household and drinking purposes, the undersigned stockholders respectfully request that the State Engineer take charge of the distribution of the water in this line and have the same divided according to the shares owned and in so doing make it possible for all users to enjoy what benefits there may be.
